NOTES:

- Irrigation systems require a Charlotte County, FL permit.
- This permit applies to any irrigation system intending on pumping water from any Deep Creek Section 23 lake.
- Property must be classified as “Waterfront” on Charlotte County Property Appraiser website.
- Suction piping must be buried at sufficient depth to provide a smooth entry into the lake and not “drape” over the bank to the water’s edge.
- Suction piping must be weighted such that it is not visible or impedes watercraft movement.
- Floats or other flotation equipment are not allowed to be attached to any piping beyond water’s edge.
- No piping, pumps, or other irrigation equipment is to be installed above ground outside of the property owner’s property line.
- Green belt and Common Property must be restored to original condition.
- Deep Creek Section 23 POA is not responsible for damage to any irrigation equipment located on POA property nor is the POA responsible for irrigation system failures due to lake levels or water conditions.
- Submit this permit along with a \$20 application fee and a refundable deposit of \$250.
